

Congratulations on Adopting Your New Pet!

Follow These Tips to Help Prevent Your Pet From Getting Lost

Equip your pet with a collar and tag, engraved with the following:

Pet Name

Owner Phone Number

Owner Address

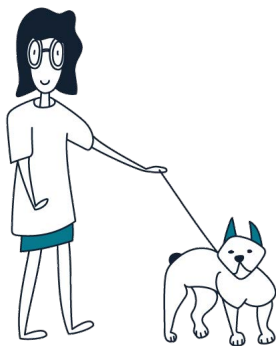

I'm Microchipped with [\[Microchip Registry\]](#)

Ensure that your pet's microchip number is registered with up-to-date contact information. [Found.org](#) does this for free.

Create an account with Finding Rover and upload your pet's photo to their facial recognition software.

Safely introduce your pet to your neighbors so that they recognize your pet if they see it wandering without you.

Fix broken fences and gates. Many shelters offer assistance with this.

Provide your pet with a properly fitting harness and leash and keep unleashed animals inside.
